iSbote A1 3D Face Recognition Attendance & Access System

5 inches waterproof hi-capacity 3D face recognition fingerprint APP controllable smart access solution

iSbote A1 3D AI Dynamic Face Recognition Access Control System is latest generation of access and attendance solution, based on advanced Dynamic face recognition technology. With high flexibility, A1 supports multiple unlock modes, including high security 3D Face Recognition, Password, ID/IC card and more.

A1 also supports multi-personal (at most 5 users) simultaneous face recognition in different brightness conditions for its built-in WDR (wide dynamic range), which guarantees good performance under any high or low brightness environment. In addition, while requested, A1 also can capture stranger's photo if he/she appears in the camera and upload photos to application software in real time, which improves system's user-friendliness and convenience in everyday life. Superiorly intelligent, A1 can accurately display user enrolled photo category when recognizing face.

Key Features

- Support face recognition for 5 person at same time, recognition speed is less than 0.2s
- Support WDR(wide dynamic range), and support face recognition under light/dark condition
- Multiple modes to access internet, like TCP/IP, USB Link or WIFI Optional
- Support stranger(new employees) face-picture capturing in camera detection range
- Can adjust face recognition distance for short, middle, or long-distance range
- Provide Free Desktop Software, Web Cloud, and Mobile App.

Key Benefits

- 3D face recognition ensures live body face detection, prevent human photo and video
- Support QR code reader to simplify access procedure and improve efficiency
- Support face identification with wearing mask or make up
- Screen lock setting for automatic face detection for greener world
- Professional time attendance and access control function
- Based on latest advanced Dynamic face recognition technology

Core Specifications

Product name	iSbote A1 AI Face Recognition Access Control Terminal
Screen	5.0 Inch IPS Touch Screen, HD 720*1280
Keypad	Touch keypad
Operation system	LINUX 3.10
CPU,NPU	1.2G Dual-Core ARM Cortex-A7
RAM	256M DDR3L
ROM	4G EMMC
Binocular camera	Real Sensor 1/2.9 inch FOV 75° 200W pixel high-definition color camera WDR

	wide dynamic Sensor 1/5 inch FOV 75°200W pixel infrared live camera
Live detection	Dynamic dual-camera anti-counterfeiting, to prevent all kinds of black-and-white, color photos and videos from deception
Logs capacity	500000
Face Registration	Local operation: Enroll face with machine, import user photo with U disk
	Software operation: Import user photo to software, capture user photo with camera
Verification	Dynamic face recognition, password, ID (IC card optional)
Face capacity	5000(20000 optional)
Card Capacity	5000(20000 optional)
Password Capacity	5000(20000 optional)
Face Recognition Accuracy	99.70%
Recognition Speed	≤0.2s, support single user/multi user(at most 5 users) recognition at same time
Recognition Distance	0.5~2.5 meters (0.5~1.5 meters with live face recognition on)
Prevent Photo	Dual camera anti-counterfeiting, prevent recognition with photo/video
Principle of Identification	Face algorithm technology of multi-task cascaded convolutional neural network based on
	video stream for dynamic face detection, tracking and recognition
WDR	Wide dynamic range, support accurate face recognition under Strong light, dark light and backlight Supports simultaneous recognition of up to 5 people, face tracking, face capture
USB	USB2.0x1, Support U disk import/export data
Power supply	DC12V 2A
Network Communication	TCP/IP, Wi-Fi
Management Software	Desktop, Cloud ,SDK, Mobile APP
Access Control Function	Magnetic door: support Alarm output: 1 set Usb Disk output:1 set Relay output:1 set Exit button: 1 set WG: 1 set WG In, out External alarm: support

QR Code Scanner	Support
Environmental adaptability	Working temperature: -15C~+45°C (storage temperature -40C~+65°C),
	Working humidity: 20% ~90% (storage humidity 20%~90+2%),
	Dark environment: LED Soft light automatic fill light (Automatic control according to ambient light)
	Ambient light adaptation range: 0-50000Lux
Multi-language	Support 20 national languages and voices including English, Spanish, Arabic, Thai, Farsi, Portuguese, French, Italian, Japanese, Korean, etc Support Chinese, English, Korean, Persian T9 input method
Installation Way	Standard: Wall mount, desktop stand; Optional: bracket for turnstile, floor stand

iSbote A2 3D Face Recognition Attendance & Access System

4.3 inch Touch Screen, Face Recognition, WDR, WIFI, Mobile APP Controlled Access Device

iSbote A2 3D AI Dynamic Face Recognition Access Control System is latest generation of access and attendance solution, based on advanced Dynamic face recognition technology. With high flexibility, A2 supports multiple unlock modes, including high security 3D Face Recognition, Password, ID/IC card and more.

A2 also supports multi-personal (at most 5 users) simultaneous face recognition in different brightness conditions for its built-in WDR (wide dynamic range), which guarantees good performance under any high or low brightness environment. In addition, while requested, A2 also can capture stranger's photo if he/she appears in the camera and upload photos to application software in real time, which improves system's user-friendliness and convenience in everyday life. Superiorly intelligent, A2 can accurately display user enrolled photo category when recognizing face.

13

Key Features

- Support face recognition for 5 person at same time, recognition speed is less than 0.2s
- Support WDR(wide dynamic range), and support face recognition under light/dark condition
- Multiple modes to access internet, like TCP/IP, USB Link or WIFI Optional
- Support stranger(new employees) face-picture capturing in camera detection range
- Can adjust face recognition distance for short, middle, or long-distance range
- Provide Free Desktop Software, Web Cloud, and Mobile App.

Key Benefits

- 3D face recognition ensures live body face detection, prevent human photo and video
- Support QR code reader to simplify access procedure and improve efficiency
- Support face identification with wearing mask or make up
- Screen lock setting for automatic face detection for greener world
- Professional time attendance and access control function
- Based on latest advanced Dynamic face recognition technology

Core Specifications

Product name	AI Dynamic Face Recognition Time Attendance Access Control Terminal
Screen	4.3 Inch, HD 1280*720. Capacitive Touch Screen
Keypad	Touch keypad
Operation system	LINUX3.10
CPU.NPU	1.2G Dual-Core ARM Cortex-A7, 600G (0.6T)
RAM	256MB DDR3
ROM	eMMC Flash 4GB
Binocular camera	200W Colorful WDR+200W Infrared live camera
Logs capacity	500000
Face Registration	Local operation: Enroll face with machine, import user photo with U disk;

	Software operation: Import user photo to software, capture user photo with camera
Verification	Dynamic face recognition. password, IDIC card optional
Face capacity	5000 (20000 optional)
Fingerprint Capacity	10000
Card Capacity	5000 (0000 optional), ID Card Standard, IC Card Optional
Password Capacity	5000 (20000 optional)
Face Recognition Accuracy	99.70%
Recognition Speed	<0.2s, support single user/multi user(at most 5 users) recognition at same time
Recognition Distance	0.5-2.5 meters (0.5~1.5 meters with live face recognition on)
Photo Avoiding	Dual camera anti-counterfeiting, prevent recognition with photo video
Principle of identification	Face algorithm technology of multitask cascaded convolutional neural network based on video stream for dynamic face detection, tracking and recognition
WDR	Wide dynamic range, support accurate face recognition under Strong light, dark light and backlight
USB	USB2.0x1, Support U disk import-export data
Power supply	DC12V interface x 1
Speaker Interface	Reserved for extended Speaker Interface
Network Communication	TCP/IP, Support C/S LAN communication, Wi-Fi (optional)
Free Attendance software	Support exporting excel attendance report with U disk
Shift	Support shift string and importing shift schedule with U disk
Management Software	Support PC software to manage data through network connection with equipment
Access Control Function	Door unclosed alarm, forced door opening alarm, alarm linkage and output, one set of door opening signals, one set of alarm signals, time permission control, connect external access control reader, Wiegand 26/34 output input
Environmental adaptability	Working temperature: -15℃~ +45 ° (storage temperature -40 ° C~+65℃); Working humidity: 20%~90% (storage humidity 20%~90+2%), Dark environment: LED Soft light automatic fill light (Automatic control according to ambient light); Ambient light adaptation range: 0-50000Lux
Multi language	English, Spanish, Arabic, Thai, Farsi, Portuguese, French, Italian, Japanese, Korean, etc
Broadcast and ring	Support display name, voice broadcast name, bulletin bell ring
Automatic fill light	Support infrared fill light, the white fill light automatically lights up when face is captured in dark light
Working Current	stand-by current: 310mA , Working current: 520mA
QR Code Scanner	Support
Working Voltage	DC12V
Installation Way	Standard: Wall mount, desktop stand; Optional: bracket for turnstile.

	Floor stand
Machine Dimension	187.5x87.5x26mm

AI Face Recognition & Fingerprint Time Attendance and Access Control Terminal

- ✓ Dynamic face recognition

iSbote A3 Face Recognition Attendance & Access System

Latest 5-inches feature-rich 3D face recognition fingerprint APP controllable smart access solution

iSbote A3 3D AI Dynamic Face Recognition Access Control System is latest generation of access and attendance solution, based on advanced Dynamic face recognition technology. With high flexibility, A3 supports multiple unlock modes, including high security 3D Face Recognition, Password, ID/IC card and more.

A3 also supports multi-personal (at most 5 users) simultaneous face recognition in different brightness conditions for its built-in WDR (wide dynamic range), which guarantees good performance under any high or low brightness environment. In addition, while requested, A3 also can capture stranger's photo if he/she appears in the camera and upload photos to application software in real time, which improves system's user-friendliness and convenience in everyday life. Superiorly intelligent, A3 can accurately display user enrolled photo category when recognizing face.

28

Key Features

- Support face recognition for 5 person at same time, recognition speed is less than 0.2s
- Support WDR(wide dynamic range), and support face recognition under light/dark condition
- Multiple modes to access internet, like TCP/IP, USB Link or WIFI Optional
- Support stranger(new employees) face-picture capturing in camera detection range
- Can adjust face recognition distance for short, middle, or long-distance range
- Provide Free Desktop Software, Web Cloud, and Mobile App.

Key Benefits

- 3D face recognition ensures live body face detection, prevent human photo and video
- Support QR code reader to simplify access procedure and improve efficiency
- Support face identification with wearing mask or make up
- Screen lock setting for automatic face detection for greener world
- Professional time attendance and access control function
- Based on latest advanced Dynamic face recognition technology

Core Specification

Product name	iSbote A3 AI Dynamic Face Recognition Time Attendance Access Control Terminal
Screen	5 Inch, HD 1280*720. Capacitive Touch Screen
Keypad	Touch keypad
Operation system	LINUX3.10
CPU.NPU	1.2G Dual-Core ARM Cortex-A7, 600G (0.6T)
RAM	256MB DDR3
ROM	eMMC Flash 4GB
Binocular camera	200W Colorful WDR+200W Infrared live camera
Logs capacity	500000
Face Registration	Local operation: Enroll face with machine, import user photo with U disk;

	Software operation: Import user photo to software, capture user photo with camera
Verification	Dynamic face recognition. password, IDIC card optional
Face capacity	5000 (20000 optional)
Fingerprint Capacity	10000
Card Capacity	5000 (0000 optional), ID Card Standard, IC Card Optional
Password Capacity	5000 (20000 optional)
Face Recognition Accuracy	99.70%
Recognition Speed	<0.2s, support single user/multi user(at most 5 users) recognition at same time
Recognition Distance	0.5-2.5 meters (0.5~1.5 meters with live face recognition on)
Photo Avoiding	Dual camera anti-counterfeiting, prevent recognition with photo video
Principle of identification	Face algorithm technology of multitask cascaded convolutional neural network based on video stream for dynamic face detection, tracking and recognition
WDR	Wide dynamic range, support accurate face recognition under Strong light, dark light and backlight
Power supply	DC12V interface x 1
Network Communication	TCP/IP, Support C/S LAN communication, Wi-Fi (optional, 35\$), 4G(65\$)
Free Attendance software	Support exporting excel attendance report with U disk
Shift	Support shift sting and importing shit schedule with U disk
Management Software	Support PC software to manage data through network connection with equipment
Access Control Function	Door unclosed alarm, forced door opening alarm, alarm linkage and output, one set of door opening signals, one set of alarm signals, time permission control, connect external access control reader, Wiegand 26/34 output input
Environmental adaptability	Working temperature: -15C~ +45 ° (storage temperature -40 ° C~+65°C); Working humidity: 20%~90% (storage humidity 20%~90+2%), Dark environment: LED Soft light automatic fill light (Automatic control according to ambient light); Ambient light adaptation range: 0-50000Lux

iSbote A5 3D Face Recognition Attendance & Access System

4.3-inches feature-rich 3D face recognition fingerprint APP controllable smart access device

iSbote A5 3D AI Dynamic Face Recognition Access Control System is latest generation of access and attendance solution, based on advanced Dynamic face recognition technology. With high flexibility, A5 supports multiple unlock modes, including high security 3D Face Recognition, Password, ID/IC card and more.

A5 also supports multi-personal (at most 5 users) simultaneous face recognition in different brightness conditions for its built-in WDR (wide dynamic range), which guarantees good performance under any high or low brightness environment. In addition, while requested, A5 also can capture stranger's photo if he/she appears in the camera and upload photos to application software in real time, which improves system's user-friendliness and convenience in everyday life. Superiorly intelligent, A5 can accurately display user enrolled photo category when recognizing face.

36

Key Features

- Support face recognition for 5 person at same time, recognition speed is less than 0.2s
- Support WDR(wide dynamic range), and support face recognition under light/dark condition
- Multiple modes to access internet, like TCP/IP, USB Link or WIFI Optional
- Support stranger(new employees) face-picture capturing in camera detection range
- Can adjust face recognition distance for short, middle, or long-distance range
- Provide Free Desktop Software, Web Cloud, and Mobile App.

Key Benefits

- 3D face recognition ensures live body face detection, prevent human photo and video
- Support QR code reader to simplify access procedure and improve efficiency
- Support face identification with wearing mask or make up
- Screen lock setting for automatic face detection for greener world
- Professional time attendance and access control function

iSbote A7 Face Recognition Video Doorbell Intercom Access System

Intercom, Access Control, Video Record/playback, Face Recognition Unlock, Mobile APP Access, Indoors & outdoors

iSbote A7 AI Dynamic Face Recognition video doorbell system is latest generation of access doorbell solution, and integrate a range of advance features into a robust architecture . With high flexibility, A7 supports multiple unlock modes, including high security Face Recognition, Password, QR code, ID/IC card and optional monitor. A7 is also characteristic of powerful interaction functions and remote controllability via mobile APP.

A7 has night vision capability as well as recording/playback function for high security around your facility. With embedded Ai technologies, A7 adopts versatile hardware/chipsets to maintain highly availability in demanding environment. In addition, while requested, A7 also might capture stranger's photo if he/she appears in the camera, which further improves system security in everyday life. Superiorly intelligent and convenient, A7 can accurately recognize face to unlock.

Key Features

- Support face recognition, recognition speed is less than 0.5s
- Support WDR(wide dynamic range), and support face recognition under light/dark condition
- Multiple modes to access internet(TCP/IP intercom)
- Can adjust face recognition distance for short, middle, or long-distance range
- Provide proprietary and tuya Web Cloud, and Mobile App
- Elevator Linkage Function for high availability
- Multiple unlocking modes: FR, QR, RFID, APP, Password
- 1080P HD display in 4.3inch
- Touch screen and night vision

Key Benefits

- Dynamic face recognition unlock, prevent human photo and video
- Support QR code reader to simplify access procedure and improve efficiency
- Screen lock setting for automatic face detection for greener world
- Professional access control function with effortless wiring
- Based on latest advanced Dynamic face recognition technology
- Image/Video Advertising Playback
- All-in-One: Calling, Intercom, Unlocking, Monitor
- Up-to-date Android intercom system

Core Specifications

Model	iSbote A7 Outdoors Video Intercom Doorbell
Operating	Android 5.1.1
CPU	ARM Cortex-A53SMP4 64-bit quad-core
Memory	LPDDR3 1GB
Storage	EMMC 8GB (standard) expandable

Color	Silver/Champagne available
Operation	Capacitive full touch screen
Dimensions	210 (height) * 120 (width) * 10mm (thickness)
Mounting size	201.5 (height) * 114.5 (width) * 36mm (thickness)
Installation mode	Install on door/wall/column
Wi-Fi to control	RFID Card/Password/Face recognition/Mobile phone remote video call opening
TUYA Function	snapshot/intercom/video record/ doorbell door unlock/record/monitoring/channel switching
Smart 7 Inch Gold/Silver Optional Indoor Monitor For Video Door Phone Doorbell Security Access Control System	
Model	A7P
Screen	7 Inch Touch Screen
Application	Home, hotel, Apartment, Villa
Function	Unlock, Monitor, Intercom, Calling
Color	Silver or Black
Network	TCP/IP
System	Linux
Internet Interface	RJ45, Support POE 24V non-standard POE switch
Dimension	215*136*17 MM
Special Features	Night vision, recording, playback
Gross weight	Approximately 1kg

iSbote A9 Latest High-End Intelligent Intercom Video Doorbell Access System*Intercom, Access Control, Video Record/playback, Face Recognition Unlock, Mobile APP, Indoors & outdoors*

iSbote A9 video doorbell system is latest generation of access doorbell solution for modernized buildings, and integrate a range of advance features into its robust architecture . With high flexibility, A9 supports multiple unlock modes, including high security Face Recognition, Password, QR code, ID/IC card and optional monitor. A9 is also characteristic of powerful interaction functions and remote controllability via mobile APP.

A9 has night vision capability as well as recording/playback function for high security around public facility. With embedded Ai technologies, A9 adopts versatile hardware/chipsets to maintain highly availability in demanding environment. In addition, while requested, A9 also might record stranger's activities if he/she appears in the camera, which further improves system security in everyday life. Superiorly intelligent and convenient, A9 can accurately recognize face to unlock in most circumstances.

61

Key Features

- Support face recognition, recognition speed is less than 0.5s
- Support WDR(wide dynamic range), and support face recognition under light/dark condition
- Multiple modes to access internet(TCP/IP intercom)
- Can adjust face recognition distance for short, middle, or long-distance range
- Provide proprietary and tuya Web Cloud and Mobile App
- Elevator Linkage Function for high availability
- Multiple unlocking modes: FR, QR, RFID, APP, Password
- 1080P HD display in 8 inch
- Touch screen and night vision

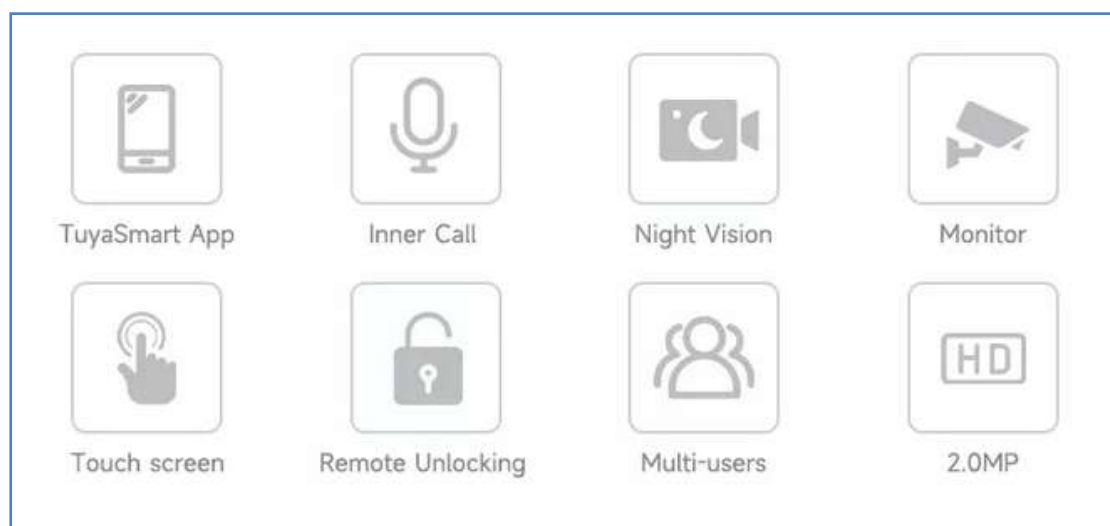

Key Benefits

- Dynamic face recognition unlock, prevent human photo and video
- Support QR code reader to simplify access procedure and improve efficiency
- Screen lock setting for automatic face detection for greener world
- Professional access control function with effortless wiring
- Based on latest advanced Dynamic face recognition technology
- Image/Video Advertising Playback
- All-in-One: Calling, Intercom, Unlocking, Monitor
- Up-to-date Android intercom system

Core Specifications

Model	iSbote A9 Outdoors Smart Video Intercom Doorbell
Operating	Android 5.1.1
CPU	ARM Cortex-A53SMP4 64-bit quad-core
Memory	LPDDR3 1GB
Camera	2M(1080P)

Storage	EMMC 8GB (standard) expandable
Color	Silver/Champagne available
Operation	Capacitive full touch screen
Power Consumption	Static: less than 7W; Dynamic: less than 12W
Power Supply	DC18V-3A
Installation mode	Install on door/wall/column
Wi-Fi to control	RFID Card/Password/Face recognition/Mobile phone remote video call Unlock
TUYA Function	snapshot/intercom/video record/ doorbell door unlock/record/monitoring/channel switching
Smart 7 Inch Gold/Silver Optional Indoor Monitor For Video Door Phone Doorbell Security Access Control System	
Model	A9P
Screen	7 Inch Touch Screen
Application	Home, hotel, Apartment, Villa
Function	Unlock, Monitor, Intercom, Calling
Color	Silver or Black
Network	TCP/IP
System	Linux
Internet Interface	RJ45, Support POE 24V non-standard POE switch
Dimension	215*136*17 MM
Special Features	Night vision, recording, playback
Gross weight	Approximately 1kg

8 inch 720 HD display TCP/IP Intercom system

calling, intercom, unlocking, monitoring

High quality aluminium alloy frosted panel + high-end glass lens + touch screen

Digital camera, stable and clear image shooting

Night vision and bright light compensation function

Full duplex voice intercom, comparable to ordinary telephone intercom

Android system ,ARM CPU,TUYA App (support Android and IOS system)

LPDDR3 1 GB memory, standard EMMC 8 GB storage ex-pandable

RJ45 standard ethernet interface all-digital design

Low power consumption technology solution, saving energy and long life span

Dimension: 331*152*10(mm)

Install method : Wall/flush install (320*143*48 mm)

Image/video advertising playback (UI display can be customized)

Door opening: IC/ID card/ password/ face recognition/ mobile phone

**Indoor unit and tuya app
All of them can get the video calling**

Multiple ways to unlock

- Face recognition
- Tuya remote unlocking
- IC card
- Password
- Indoor unit unlocking

66
